DETAILED ACTION

Claim Objections

Claim 37 is objected to because of the following informalities:

It is suggested that in:

Claim 37, line 3, before "...steering velocity ratio..." delete "the".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 19 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claimed limitations of "...a controller responsive to said throttle setting, said steering setting, and a selected one of said characteristic setting values for controlling said first and second drive sources, said controller respectively controlling velocities of said first and second drive sources to correspond to the steering velocity ratio based on said steering setting and said throttle setting in accordance with one of said steering characteristics corresponding to said

Art Unit: 3722

selected one of said characteristic setting values..." in claim 19 are not described in the specification.

Claim(s) 20-39 depend from rejected claim(s) 19 and include all of the limitations of claim(s) 19 thereby rendering these dependent claim(s) indefinite.

Allowable Subject Matter

Claims 1 and 6-18 are allowed, as stated in the previously sent notice of allowance.
